The bottom portion shows a textured, pebbled leather surface with visible stitching along a seam. The overall lighting is soft and warm, creating a high-quality, tactile feel.

ANIMA ITALIANA

ITALIAN SOUL

Siamo una vera realtà italiana, che sa dare concretezza alla propria 'italianità' attraverso creazioni, prodotti all'avanguardia con un'anima che viene dalla nostra storia, solo ed esclusivamente vera.

Mettiamo i nostri gesti, il profumo del sole e le risate in questo. Il saper fare italiano è il nostro vivere quotidiano, la maestria con cui sappiamo realizzare elementi che non sono semplicemente arredi, hanno il sapore dell'arte, fatti per portare eleganza; il design nella sua essenza.

Impariamo e studiamo le tradizioni tramandate come qualcosa che è raro e prezioso, ne abbiamo fatto tesoro e come le aziende italiane sanno fare, le abbiamo evolute, migliorate e unite a queste tutta la forza del nuovo, cogliendo contaminazioni e esigenze delle recenti necessità e delle future.

Abbiamo lavorato tanto per riuscire a mettere insieme professionalità che sanno fare ciò che hanno nel cuore, nei libri dei ricordi, gesti sapienti, l'arte del fare e sanno stupirsi ancora e continuare un percorso di crescita. Una creatività irrefrenabile e la capacità di discutere e condividere un pensiero comune. Questa è la nostra 'italianità'.

We are a genuine Italian company, who knows how to express our 'Italianness' through our creations: cutting edge products with a soul that comes from our unique and exclusive history.

We put our gestures in motion and join the smell of the sun with laughter into it. Italian know-how is our day-by-day, the gift with which we create elements that are not simply furniture pieces, but that have the flavor of art, made to bring elegance - design, in its essence. We learn and study the traditions handed down as something rare and precious. We value them. We evolve, improve and combine with them all the strength of the novelty, capturing the intakes and needs of recent and future needs.

We have worked hard to be able to bring together professionals who know how to materialise what they have in their hearts, in their memory books – skillful gestures, the art of doing – and the will to keep on surprising themselves again and again, in a continuous path of growth. An irrepressible creativity and the ability to discuss and share a common thought.

This is our 'Italianness'.

CONNESSIONI DI DESIGN

DESIGN CONNECTIONS

Un traboccante divertimento nella scoperta. Un bisogno di sperimentare raccogliendo contaminazioni da culture diverse, stili di vita, comportamenti, per portarli nel nostro percorso. Trasformiamo questi legami vivaci in qualcosa di dinamico, attraverso cui costruire il nostro progetto creativo. Una visione particolare della ricerca. La vera sfida per noi è scrivere nuove storie di design partendo da gesti concreti e sicuri, dettati dai mestieri di un tempo e al tempo stesso sempre più attuali ed esclusivi. Materie selezionate plasmate in manufatti distintivi capaci di esprimere eleganza e armonia.

An overflowing joy of discovery. A need to experiment, collecting influences from different cultures, lifestyles and behaviors to bring them to our path. We transform these links into something dynamic, through which we can build our creative design. A particular vision of fieldwork. The real challenge for us is to write new design stories from factual and safe gestures, dictated by the crafts of the past and, at the same time, always more current and unique. Selected materials shaped into distinctive artifacts capable of expressing elegance and harmony.

Il percorso che ci ha portato a creare queste nostre collezioni di arredo vede coinvolte diverse figure chiave che hanno contribuito in maniera diretta o indiretta alla realizzazione di ogni singolo pezzo, professionisti che sono al tempo stesso pilastri senza i quali il progetto non avrebbe visto la luce.

Per questo un grazie sincero va a Ricardo Antonio (RADS Design Studio), agli altri designer coinvolti, e a tutto il Team di LEGAME.

The path that led us to create our furniture collections involves several key figures who have contributed directly or indirectly to the creation of each piece, professionals who are also pillars without which the project would not have seen the light.

For this, sincere thanks go to Ricardo Antonio (RADS Design Studio), to the other designers involved, and to the entire LEGAME Team.

Il divano Vicino ha una geometria semplice, resa particolare dalle finiture e dalla forma dei braccioli che si piegano sui lati, dando vita ad un dettaglio che incornicia la seduta e che ricorda il bavero ripiegato di un cappotto.
